

# Introducing our NEW Deluxe Greenhouse Packages

Solexx™ Greenhouse Kits

## Superior Greenhouse Kits

- Sizes and shapes for every gardener
- Extremely durable and long-lasting
- NEW! Stronger, lockable door
- Heavy-duty, pultruded framing
- Solexx white covering produces highly diffuse light for optimal growth
- Highest insulation value in competitive market. Reduces cooling costs.
- Flexible plastic withstands severe weather
- 10 Yr. Warranty
- Made in the USA

**People who love plants love Solexx!** Solexx Greenhouses are unlike any other greenhouse on the market. They're designed for people, plants, and the weather—everything you want from a greenhouse!

### Most Economical to Cool.

Independent lab tests prove Solexx provides better insulation than even 8mm triple-wall polycarbonate. Plants thrive while you save on energy costs.

### Superior Light Diffusion.

Solexx is white for a reason—it produces an even, diffuse light proven to accelerate plant growth by 25%. The light glows evenly reaching into every corner of the greenhouse.

### Undeniable Durability.

Solexx offers a 10-year warranty with an even longer life expectancy. It withstands strong winds and won't fade or yellow over time. Best of all it requires little maintenance.

### Cutting-Edge Framing.

Solexx frames offer the strength of steel without rust and corrosion. This pultruded, composite material was created to replace steel-beam construction in bridges! The white, reflective color won't cast shadows, which contributes to the superior light quality.

### Greenhouse benches and hanging rods included.

Each wide, strong full-length shelf holds up to 500 lbs so you can fit a lot of plants in a small area. Steel-reinforced hanging rods run the length of the greenhouse giving you the perfect spot to overwinter your hanging baskets! (optional wire shelving available)
